

Costal Cartilage (frozen)

Description

550050	Costal Cartilage, small 2.5-3.9 cm
550051	Costal Cartilage, medium 4.0-6.9 cm
550052	Costal Cartilage, large ≥ 7.0 cm

Dimensions

Length (cm)	Thickness* (mm)	Width* (mm)
2.5–3.9	≥ 8	≥ 10
4.0–6.9	≥ 8	≥ 10
≥ 7.0	≥ 8	≥ 10

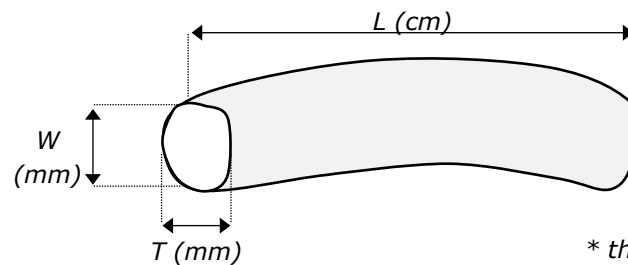

Processing specifications

Costal cartilage piece from post mortem donor, aseptically processed, frozen

Measurements

Length (L)	Length measured in centimeters medial to lateral following the natural curve of the tissue
Thickness (T)	Minimum thickness measured anterior to posterior; each end must be within tolerance ± 0.5 mm
Width (W)	Minimum width measured at the cut end; each end must be within tolerance ± 0.5 mm

Illustration:

* thickness (T) and width (W) may vary from medial to lateral
