

## Tibia whole, without soft tissue

### Dimensions

#### Description

		(L)	(W)	(W')	(W2)	(A)	Cart
		cm	mm	mm	mm	mm	number
550325	Tibia whole, without soft tissue, left	20.0-45.0	10.0-50.0	30.0-100.0	20.0-60.0	10.0-50.0	1-5
550385	Tibia whole, without soft tissue, right	20.0-45.0	10.0-50.0	30.0-100.0	20.0-60.0	10.0-50.0	1-5

#### Cartilage Score:

- score 1 = perfect
- score 2 = small areas of roughening
- score 3 = irregularities less than 1 cm squared
- score 4 = irregularities larger than 2 cm squared
- score 5 = large, deep irregularities or defects of the cartilage

#### Measurements

L	Length from the top of the tibial plateau to the medial malleolus
W	Width of the shaft at mid shaft measured anterior to posterior
W'	Maximum width of the articulating cartilage of the condyle measured medial to lateral
W2	Maximum width of the distal end measured medial to lateral

A Width of the shaft at mid shaft measured medial to lateral
