

## Crushed cancellous (*freeze dried*)

		<b>Dimensions</b>	
		Volume	Particle size
<b>Description</b>		cc	mm
500040	Crushed cancellous	5	1-15 mm
500055	Crushed cancellous	15	1-15 mm
500060	Crushed cancellous	30	1-15 mm

### **Processing specifications**

Composed of approximately 95% cancellous bone (+/- 5%) with 95% of the pieces ranging in size per product code. The structure is irregular because the cancellous bone has been milled.

### **Measurements**

V                      volume measured in cc  
Particle size        measured in millimeters
