

Mineralized cortical-cancellous powder (*freeze dried*)

Description

500805	Mineralized cortical-cancellous powder	0.5 cc
500810	Mineralized cortical-cancellous powder	1 cc
500820	Mineralized cortical-cancellous powder	2 cc

Processing specifications

Composed of 50% cortical bone and 50% cancellous bone.
Particle size from 250 μm – 850 μm .

Measurements

V volume measured in cc
